About

Even owner has the secrets!

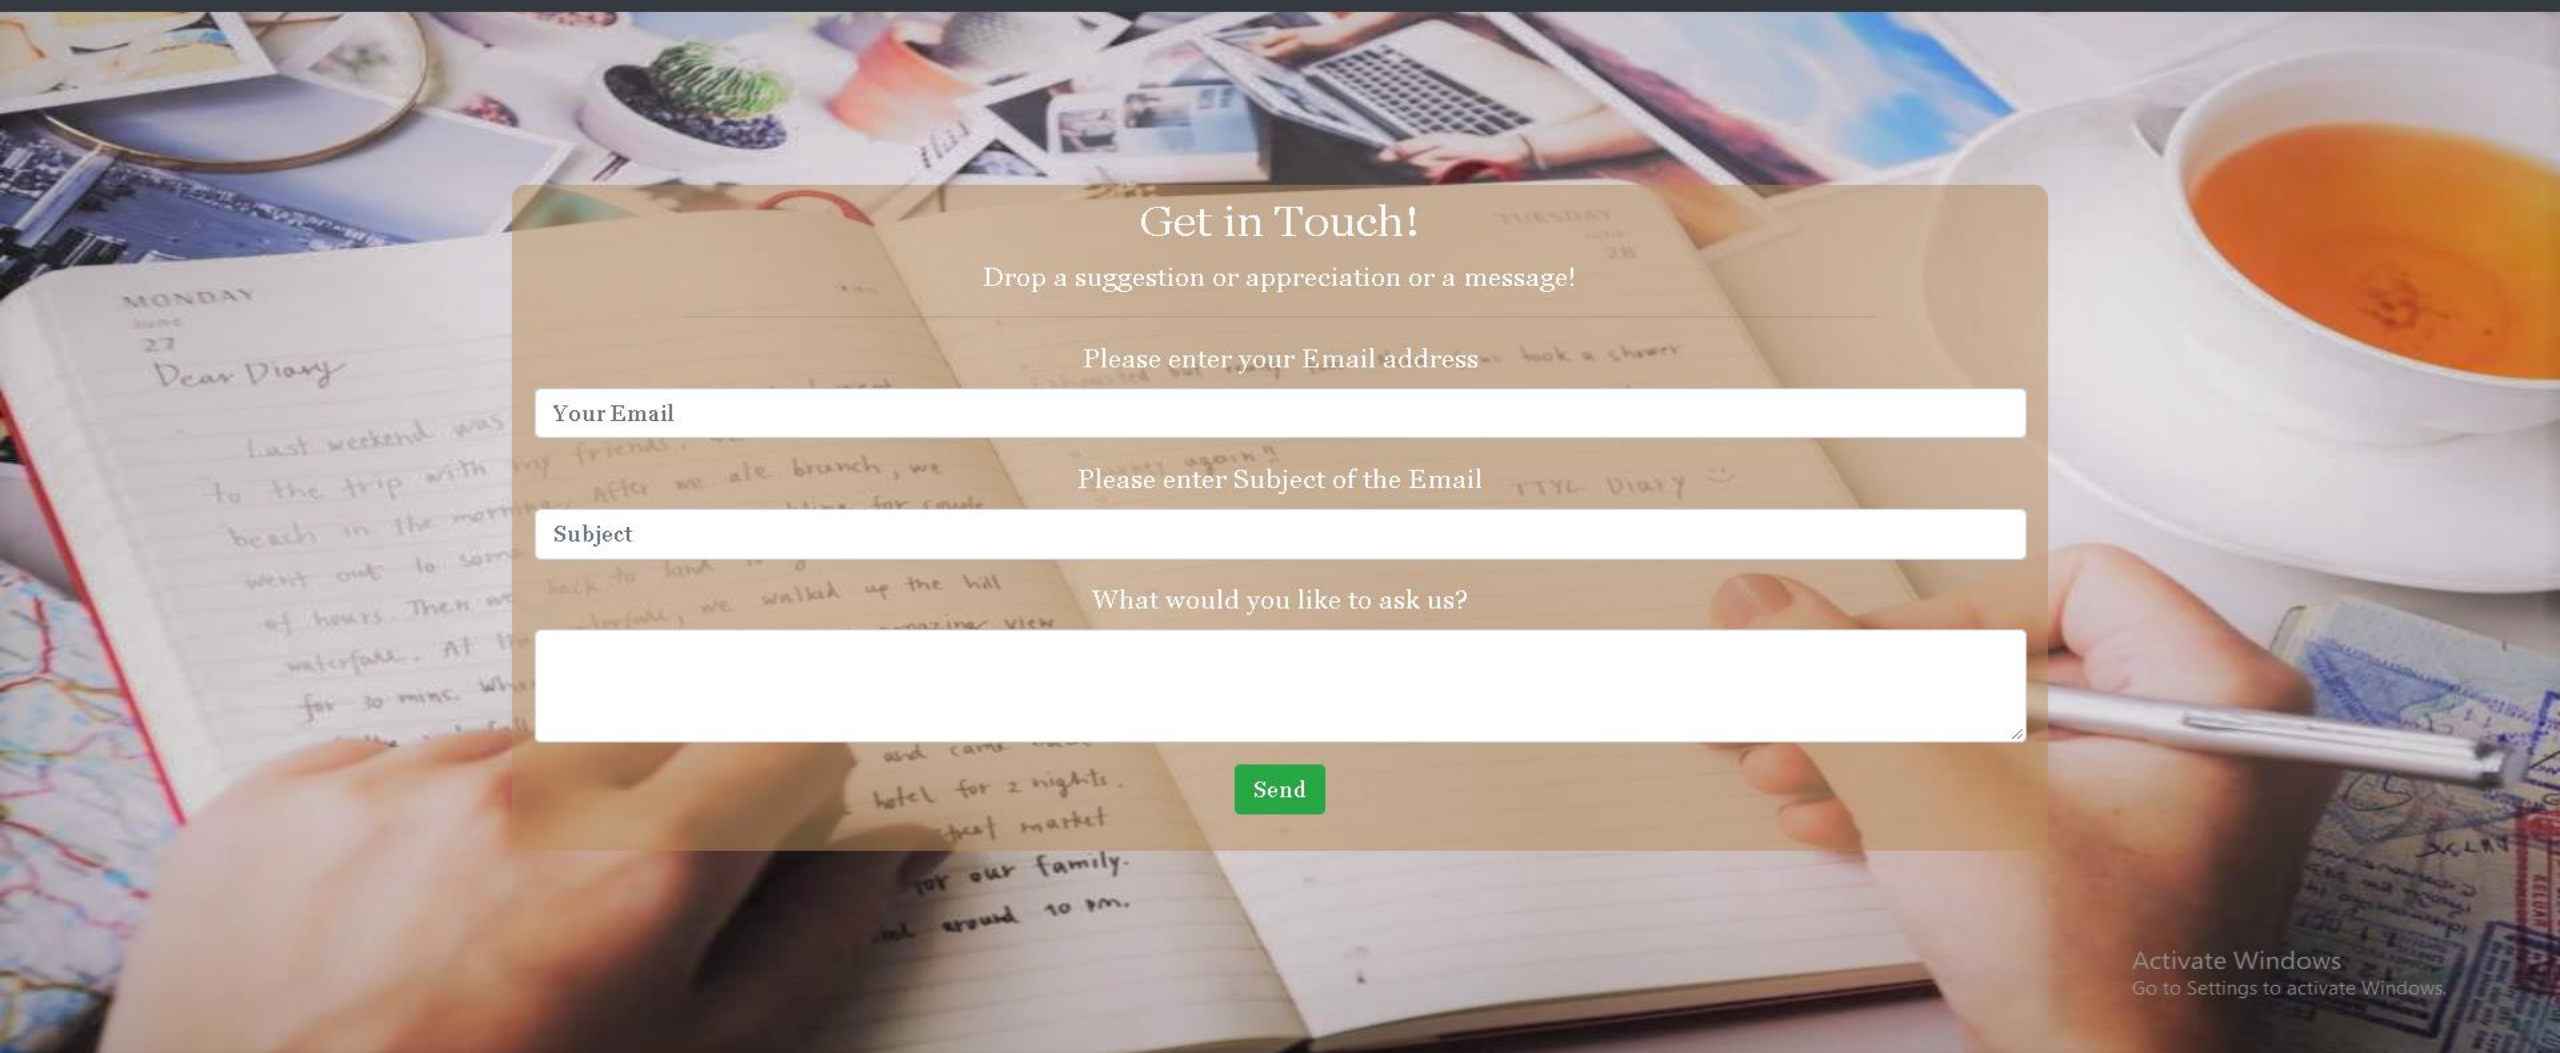

This is created by **Harsh Saini** and it became possible due to his instructor **Mr Rob Percival**.

This is a learning project whose motive was to learn how to create a functional Website. In the Diary section, after writing the text you'll need to click Save, otherwise no data will be saved. Also remember to add atleast one letter to the Diary.

All the information you'll gonna store on this website will be secure forever. We will never share your information with anyone, moreover, all the information is saved with the encryption so even the owner can't access your information.

If you face any problem, refresh twice. It may solve your problem. Also don't forget to refresh the page on each alert.
